CPM BOX

Advantages of using a CPM box:

- ✓ Plug and Play by DHCP
- ✓ Wired and Wifi supported
- ✓ It operates under standard web HTTP/s (80/443)
- ✓ Configurable & controllable by the customer
- ✓ Smart data capture
- ✓ Automated printer devices discovery
- ✓ Up to 10 networks (LAN)
- ✓ Up to 500 printers
- ✓ Transparent for the customer network: designed not to be invasive at all
- ✓ Minimized usage of the bandwidth

CPM Security:

- ✓ Fully respectful with the network and its printers:
 - RFCs for communications & Security
 - HIPAA: Health Insurance Portability and Accountability Act
 - Sarbanes-Oxley Act
 - Gramm-Leach-Bliley Act
 - Federal Information Security Management Act
 - ENISA Advising Directives
- ✓ No confidential data is captured (jobs, names, etc.). Restricted to capture only the data that is needed to manage each device.
- ✓ Supports layers of encryption and communications on SSL (1024-bit HTTPS).
- ✓ Does not need access to the Print Server. Data transmitted from the CPM to the CPS Server is fully auditable by the customer and by the MPS provider.
